Sound Isolating™ Earphones

# SE102

- ◆ Dynamic MicroSpeaker Delivers Premium Sound Quality
- ◆ Sound Isolating Design Blocks Outside Noise
- ◆ Modular Cable Design Provides Additional Flexibility

# SE102 Sound Isolating™ Earphones

## The Perfect Introduction to Sound Isolation

### Premium Sound Quality

Speaker Type: Dynamic MicroSpeaker

SE102 speakers employ technology originally developed for professional musicians.

### Sound Isolating Design

Blocking more than active noise cancellation technology, sound isolating sleeves prevent outside noise from interfering with your audio experience, allowing you to listen at lower volumes.

### Comfort and Personalization

Included accessories:

- Soft, flexible sleeves gently contour to your ears.
- Multiple sizes of sleeves ensure the best possible fit.

### Extended Functionality

Modular Cable Design

- Interchangeable cable provides additional flexibility, enabling use with armband music players.
- Enables inline accessory integration, including the Music Phone Adapter (MPA) and Push-to-Hear Control (PTH).
