

# SE115

- ◆ Dynamic MicroSpeaker II for Vibrant and Detailed Sound
- ◆ Four Color Choices to Compliment Your Style
- ◆ Sound Isolating™ Design Blocks Outside Noise
- ◆ Fit Kit for Superior Fit and Comfort

# SE115 Sound Isolating™ Earphones

Vibrant and detailed sound available in four colors to compliment your style.

## Superior Sound Quality

Speaker Type: Dynamic MicroSpeaker II

The SE115 features the 2nd Generation of Dynamic MicroSpeaker to deliver warm, detailed sound with enhanced bass. This new driver is smaller than other dynamic drivers, which offers maximized comfort during extended wear.

## Vibrant Color & Style

Four Color Choices

Available in black, red, blue and pink to make a "rock star" fashion statement that compliments your own style.

## Isolation from Background Noise

Sound Isolating™ Design

Blocking more than active noise cancellation technology, sound isolating sleeves prevent outside noise from interfering with your audio experience, allowing you to listen at lower volumes.

## Unmatched Personalization and Comfort

Ergonomic Design & Fit Kit

- Soft, flexible sleeves gently contour to your ears.
- Multiple shapes and sizes of sleeves ensure the best possible fit.

## Modular Cable Design

- Interchangeable cable provides flexible wearing options.
- Enables inline accessory integration, including the Music Phone Adapter and Push-to-Hear Control.
